Apple/iPhone iPad

WiFi configuration

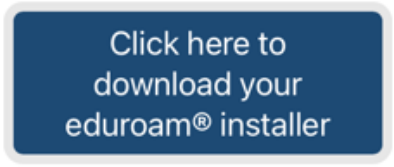

Operational on all UMLP locations and in all french universities.

Depending on your device the following illustrations can vary, reach out to the reception for support.

STEP 1

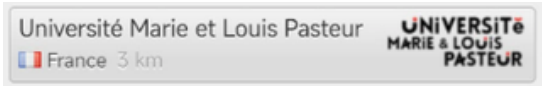

- Enable your data or connect to the limited WiFi network ***ufc-config*** (password : *configufc*)
- Scan the QR code or enter the following URL in the Safari browser's address bar : **https://cat.eduroam.org/**

STEP 2

Click on **Click** here **to download your eduroam installer**

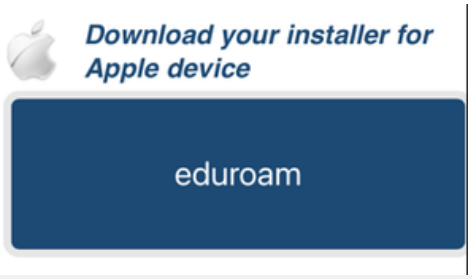

STEP 3

Select your institution :

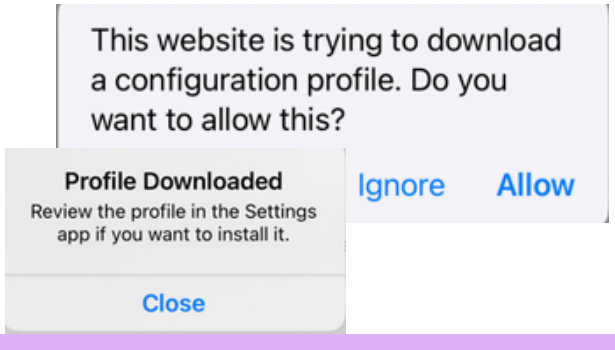

Université Marie et Louis Pasteur

STEP 4

Your device is recognized by the system. Download the profil by clicking on the blue button **eduroam**.

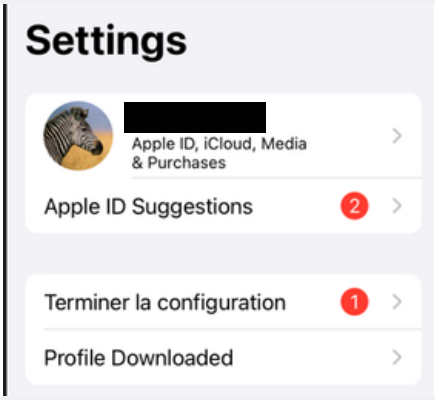

STEP 5

Install the profil

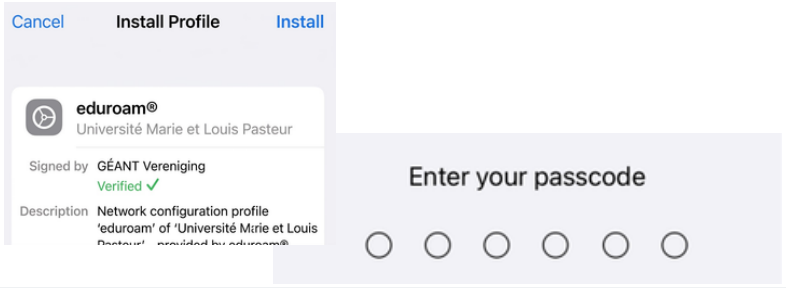

The profil is being downloaded.

STEP 6

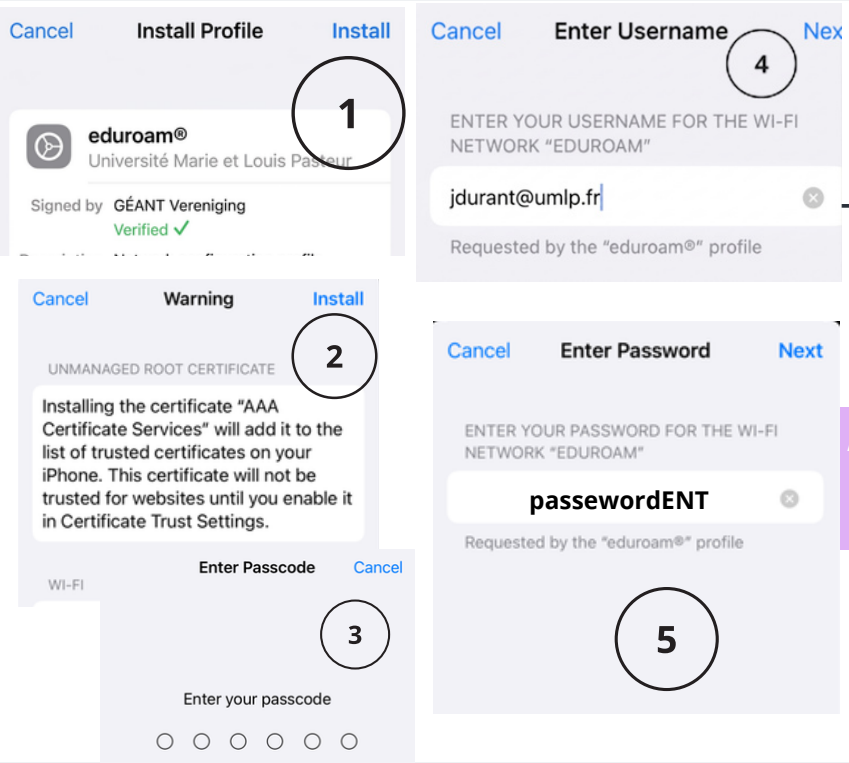

Go to **Settings** and Click on **Profile Downloaded.**
Or go to **Settings**, then **General** and click on **Profil**.
(type " Profil " in the search bar if needed)

STEP 7

Click on install
Type the **password** of your device to autorize the operation

STEP 8

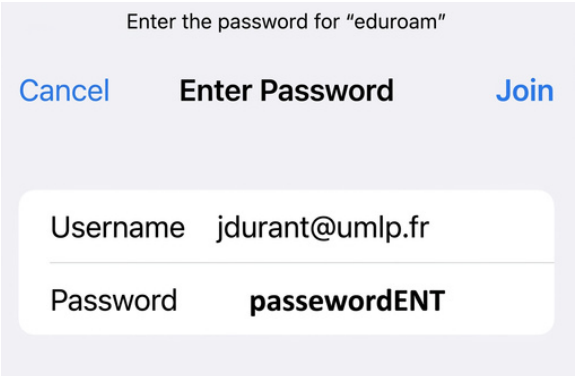

Click on install, to download the profil and the certificate AAA.

Type the login **Sésame (ENT)** followed by @umlp.fr
Example : jdurant@umlp.fr

ATTENTION : this is not the academic email adress !

The password is the same as the **Sesame (ENT)** account.

STEP 9

In the WiFi settings, select the WiFi network named eduroam

IT'S OVER !

IN CASE OF FAILURE TO CONNECT

Delete the existing profil and renew the entire procedure
